

Good Morning All

This is a picture of my daughter, Monique. She is a pediatrician specializing in infectious disease working for the Center for Disease Control (CDC). As you can see she is a Lieutenant Commander in the United States Public Health Service (USPHS). Since joining the USPHS she has deployed to Africa to assist in the fight against the Ebola crisis; deployed to Romania to help establish a program to fight Hepatitis in Romania and has been at the forefront of the Opioid crisis here in the US; last week she was in Chicago working with the local health departments to formulate plans to fight the Corona virus pandemic in that area. This weekend she travels to Texas/Mexico border to do clinical work for migrant children on both sides of the border. Please keep her in your prayers.

Tonight is the last night of Passover and Exodus 13:6b tells us that the seventh day is a festival to the Lord. This morning I received this link from my friend Bruce Herzburg for a Saturday Night Passover Seder that was a star studded event which was a fund raiser for the CDC foundation.

https://youtu.be/QGRsH2Qti_Q

The CDC Foundation is an independent nonprofit and the sole entity created by Congress to mobilize philanthropic and private-sector resources to support the Centers for Disease Control and Prevention's critical health protection work.

This fund raiser is to help raise funds for the CDC Foundation's Coronavirus (COVID-19) Emergency Response Fund to help those first responders on the front line of this pandemic.

Enjoy the show and if you are moved donate generously.
